Dear Board,

I never knew I was a trend setter?

I used to use a Tenkara rod to catch crappies and bluegills when I lived in Florida 30 years ago. Only thing is, it said Uncle Buck on the side.

I might dig it out and try it again, you could torture fish on their beds by dropping a foam spider or a weighted Wooly Worm on their heads. Plus it was awesome for slinging live crickets or minnies into brush piles.
