Keep in mind these are all pre-spawn fish in a unique environment.

Thought so 😊

I've been catchin a few smallies on French and the Allegheny(2nd time ever yesterday) but haven't been finding any real numbers of fish, just a couple here and there. There's another river in Western PA were I fish for smallies quite a bit but it's kinda been on off year numbers wise there. Still having fun and catching fish though, smallies are a blast!
