I know some folks are from Clearfield County heck even Pa Trout Unlimited president Ken Undercoffer supposedly lives there.I wish Trout Unlimited would spend some effort in Pennsylvania keeping this Marcellus situation in check and applying some pressure to the folks that allowed such rampant disregard to happen without having the proper number of specially trained registered inspectors on the hunt at these well sites.

Are you a Trout Unlimited member? If not then we sure wish you'd get involved to express your concerns, help out, and learn that exactly what you wish TU would do they are in fact already doing but we could always use more help from folks just like you.
