Well Fox, you can disagree all you want. These numbers don't lie.

Varivas 9X is thicker in diameter than Rio Powerflex 8X.

Now newbies (and others) are going to be using 9X on Valley, because you said it is a must in certain pools. And if it works there.....

This is exactly how the 9X "myth" spreads. You should know better, and don't take shots at me if you don't. 😞
