This is exactly how the 9X "myth" spreads. You should know better, and don't take shots at me if you don't.

I wasn't taking shots at you especially in open forum. You have your opinion and I have mine. I disagree with you based on my experience (or lack thereof) and info that comes from guys that have fished that stream for more years than I've been alive.

Sorry that you and I will just agree to disagree.
