After thinking this through, I see H-A's point about how someone's opinion can influence those new to the sport. Not that my opinion has or will ever influence anyone, whereas, I have used 9X and even 8X for that matter, it is the exception rather than the norm. Most midge situations 7X is more than enough with 6X even working at times. Other fishing like terrestrials can be done with 5X. Hell, I admit that 7X can be frustrating to use because it kinks up so quickly, so imagine how frustrated one would be with 8X and 9X.

I certainly had no intention of starting WW III on PAFF and apologize to anyone I offended because I have on occasion used 9X tippet. Let me make this PERFECTLY clear, I respect H-A's opinion and experience and that will not change even if we tend to disagree from time to time. I mean the Republicans and Democrats can't ever seem to agree on how to fix our country, at least H-A and me agree a lot more times than them.
