I use a bead head green weenie every once in a while, and let me tell you, trout go crazy for that. I usually stand along the edge of the creek I fish at and roll cast upstream in some rushing water. I fish it with an indicator, and I catch a lot of fish. I personally don't like it for that reason, it's too easy. I usually use it as a fail safe, or just for fun.

Good Luck! :D
