Yep. Looks to be the same as the cans of Permethrin at Dick's. 6 weeks lasting power, etc.

Curious though, this Sawyer stuff \$6.59/ for 6oz can on Amazon. The cans I bought at Dick's were 13 or 14oz I think and I paid \$6.99/can. (\$7.99 is the new price). The 24 oz spray bottle is \$15.

Is there any difference between these products?

BTW, always keep an eye on the register when you're being rung out. Dick's had these for \$6.99 on the shelf, but rang them as \$7.99. Guess what price I paid??
