Huck, I guess that was the same engine then, my mistake. Either way, many thanks to you and your buds for getting it out of there! That's such a beautiful, fairly wild (WB) area that used to have great fishing. Another example of how stocking over wild trout puts an end to a great fishery.

Yes, I fish the WB about once every other week, and it has been hurting from the stocking. I caught a holdover brookie in april where painter comes into the WB, then caught him again in the same hole 3 weeks ago 😊

Pointless story I know, but a cool one !
