the potential to create a regular series, "fishing with jack," exists. my kickstarter goals are:

\$11,500 for music liscening. i'm pretty sure i can get hawkwind for cheap, but all that dylan crap is gonna cost us.

\$1,150 for dvd authouring.

\$1000 for the 5.1 mix, because when that part of Can's Halleluwah starts to swirl, you're really gonna wanna immerse.

\$250 dvd graphic design, have you seen FI's prices lately?

\$1600 itunes prep and submission, goddamned apple tax.

that's \$15,500. plus i'm gonna need an evan williams fund, figure that's another \$8k.
