hey 1wt,

what parts of Marburg do you fish for white Perch , what nearby roads, access points etc, I have a kayak and can get to them if I need to. I have always liked WP fishing because when yu get into them it is just one after another.

when I lived in Harford co MD I use to fish rapids below Conowingo in July and Aug when water was shallow and bath warm. i would catch whie perch one after another lots of fun with a little current. Every now and then you would hok up and then a stripper would come and steel your fish and fly.

thanks
