This is fantastic news. Seems as if the Pfbc has finally realized the potential, that many of us talked about and have tried to fight for. I am currently drafting a letter on behalf of WPTU, and with the backing from LCFA, LRSA, and Pohopoco Rod and Gun Club, to investigate further the Pohopoco Creek tailwater potential. This article puts hope in what many of us thought was possibly a lost cause

The Pfbc's possible change of stance on the Lehigh is finally some good news for all that have worked hard over the years to see the Lehigh become a great tailwater. Still a lot of work to do, but the LCFA and others should be beaming with pride, on what they have accomplished!
