RRT - No one likes change, especially to their "own" personal waterway. But I don't think those that are affected by any changes should hold the PFBC hostage when they are trying to improve our states resources, with in reason.

See, Midnight Anglers post

This policy is good for PA trout fisheries, good for PA Anglers, good for PA's economy too. If the agencies caved to everyone's complaints, there would be no state highway system either.

My bet is if managed properly, both smallie, walleye and trout will provide a really nice fishery.
