As JeffK mentioned it is illegal to fish the Beaverkill or Willowemoc after September 30 unless you are fishing in a designated C&R section. You can fish the WB of the Delaware border waters legally until October 15 as long as one side of the river is PA. Once you get about a mile above what is called Upper Game Lands both banks are in NYS and no fishing is allowed.

WB I am pretty sure you can fish the border waters on the WB all year. It is the upper WB that closes on Oct. 15th. Areas like the gamelands can be fished year round.
