Older people don't have more time, they just make the time. I'm not criticizing anyone. IT's just that as you age priorities gradually change from raising kids or having them to other things. I'n 63 and I haven't yet met any younger folks that can get as much done in a day as I can. I will say though in the last couple of years I've slowed down, I've got nothing more to prove.

During my tenure as a TU officer at our local chapter we had a guy that was at every stream project for about 12 years, last time he was out planting trees he was 86.
