walk 200 yds north of the inlet, set up there (there is a slough that runs from sea to shore near a pole in sand) end of beach buggy area. great spot for fishing. always had fish. drag a clouser along bottom for fluke, or a small popper for the little blues. also some rain fish and silver sides imitations will work. hit the inlet at night with black flies for weaks and blues. maybe a small shark too. you'll need a sinking line to fish the inlet fish will be deep and you need to get DOWN ! when are you leaving i have a sinking head I can send you if you need...pm addy and I'll send one to ya..
