The Conestoga can be a good float. There are some easy access points to put in and take out at Peralman Park just off Rt. 23 down to Conestoga Pines Park next to the public swimming pool just off Pitney Road and Arthur E Morris Pkwy. This float has a variety of water from fast riffles to long deep stretches. It has one rocky crossing from an old damn removal at the waterfront restaurant just below Eden Rd. I've floated in kayaks(easiest), canoes and john-boats all about 5 hour floats. Schedule is jam packed or I'd go down with you. Brian, I have a yak usually available if you wanted to head out with him some time.
