While I was parked in the meadow tuesday night I was approached by an allenberry employee. I was told I "should" park in the fishermans parking lot on top the hill. The employee did have an I.D. badge. I did not say anything, and the polite employee left. My problem which I did not relay to the person is I'm over 65 and have a heart problem, and that hill would be a challenge. Has anyone ran into this lately.
