Looks like a perfect beach day. Kingfish, bluefish and fluke are around. You don't have to see the bluefish to find them, stop at a few holes and try for awhile. Same with the kingfish and fluke, once you find them stay with them.

wish i could go, 6wt. poppers, sandfleas, and small clousers..30 foot cast and your into one of the 3 species. kingfish will grab flies and you can spot them in the wash...
