Education is another tool to influence angler behavior relative to this issue.

Here is a proposal; have PATU purchase a full page advertisement in the PFBC fishing digest with a well crafted message. Pay to have it placed in a prominent location towards the front of the digest. Maybe adjacent to the 2013 trout season listing. Ask the PFBC to assist in crafting the ad. Set up a special fund at PATU to fund the add. I will donate the first \$100 to the effort.

Interesting idea. As well, one thing that's REALLY lacking is the average trout angler's awareness of the presence wild trout in many of our streams.
