First off welcome to the board. This is a tough stream to flyfish this time of year. If I were you check the stream temp first. Where you are fishing does hold trout early in the year but not this time of year. Try the pulling streamer where there is water. This stream fishes best in april and may. I know they do a fall stocking just not sure when it is. The meadow section is alot better(Its the next road after black rock. Make a right and the First left Pull over and park there.) Good luck tryin to find them now!
