URL:

"There are over 3000 streams in PA that are class B, C, or D. 103 of them are on the wilderness stream list. I call that a tiny %."

Doesn't matter to me... you said that they don't publish a list of class B, C, D streams. Well they do that through the wilderness trout streams section. Though the percentage is tiny it is published and it is a list nonetheless and excuse me but 103 streams is enough to keep most anglers busy for a lifetime. The car is yellow.

Wilderness Trout Streams
