Gents:

I'm going to be staying in a cabin not far from Hazleton, PA this weekend, and I was hoping to snag some stream advice.

Please do not suggest I look at the Fish and Boat resources. I've researched there fairly exhaustively and explored a fair amount in the vicinity based on those. I've had some success (with the exception of the Hickory/Mud run area, which has been documented widely in this forum, does not seem to be particularly productive currently).

Still, there's always more to learn.

What I'm looking for is the rare gentleman on this site who is willing to share a new spot or two with another respectful fisherman. I am hoping to stay within a 30-60 minute drive of Hazleton (which would exclude the famous State College).

Thanks very much in advance for any help you are willing to provide.
