Good posts by Sasquatch, Fox and Heritage Ed.

We have a diverse group of members on here. Everyone has an opinion and certain sensitivities. Whether one agrees or disagrees, everyone's opinion should be respected.

The long and short, sharing is encouraged, but use your judgement when posting, as stated in the posts above.

If you have something meaningful to share, okay, but taunting and picking at the scab of a wound is not the right thing to do. Respect your fellow PAFFer.
