Don't get too excited I was up on Wednesday to fish the lake. The river is pathetic. At a whopping 100cfs it will be an absolute bloodbath in the dsr and lower river. If anyone remembers 2007 it's worse now. It will be shoulder to shoulder from the ball park all the way to the mouth of the river. The salmon actually though more than likely won't be able to get past the staircase with the low water. The hoards of hooligans, drunks, snaggers, and rippers will have a field day. People are going to hunt those poor fish like it's their last meal. The hatchery will more than likely be asking for egg donations again.
