Why not keep the 5wt and get a 4wt too...?

Throwing names and models (TFO, Redington, Sage, R.L. Winston Fli or TiCrX or Finese) will get you no where, no matter who you ask...its all greek to me anyway.

If you know all that stuff you spend too much freakin time reading catalogs and not enough time fishing....

What you need to do is throw some line. Everyone is different. Get to a shop or shops and test them in the parking lot or wherever they'll let them try it out. If they don't there are other places that will and that's where you should buy it.

Good luck man.
