\$19.90

You can add your own rubber tip if you are concerned about sound.

That's a solid deal imo and like you said, add a walking cane rubber tip if concerned about noise.

The \$19.90 has \$4.99 shipping. I would opt to pay a few cents more (\$.30) and order it through the Amazon Fullfillment incase you have any problems. Returns are much, much easier when Amazon is the seller or if they handled the order. Just and FYI.
