I couldn't help myself, I had to take a little drive and get an hour and a half of fishing in today. I didn't get to use my two weight the other day and it was really buggin' me.

Caught two nice wild browns on hand tied worm I like to tie. It has wraps of lead covered with hares ear dubbing on the hook for a midsection. Someone on here suggested I name it Jakes Heavy Worm a couple years ago.

Its been a while since I took any fish pics so I apologize for the wild fish pron. First one slipped away and scooted off. 😊

Enjoy,

Jake
