ryguy,

How much for a guided day on the tribs w. you? You seem knowledgeable. You skate mice on Elk?

Just come to the [Steelhead JAM](#) it's free. I'm all talk though... 

I haven't skated flies yet, but it's on my to do list. It'll take certain conditions for skating to work. I hit what I would consider good conditions for that 2 years ago at the JAM. Water fell about 18" overnight and was swinging nymphs and getting a ton of action.
