Nope and that is the problem. There are two guys that bought up all the land between Ridgway and Johnsonburg between and railroad track and the river and it is all posted and from what I hear they will prosecute trespassers or at the very least harrass you do death.

The river is considered public waters so the only way to fish that area is to wade up in the river from Ridgway or down from Johnsonburg and stay in the stream below the high water mark.

It you are not willing to wade in and back you are out of luck. The other alternative is to rent a canoe and float the area if there is enough water or fish the lower water below Ridway or the West and East Branch above Johnsonburg. I wish it was otherwise, but that is the way it is for now.
