gfen, you mean like the dark spot at the base of the dorsal fin on streamerguy's pics? Do you contend that they are bluegill too? I don't recall ever seeing a bluegill with those blue/green lines on the side of the head either.

I think he means its a freaking bluegill, who cares! 🙄

Funny you should say that - I know gfen's sarcasm runs about as deep as anyone's, and I normally do a pretty good job of detecting. I guess I was off my game a little!
