Who's in?

doc, volks, Fox, joesy, eppcray, surveyor, anyone I may have left out

I love WW but I'm ready to get on some stubborn fish, would love the company, help confirming if I saw suckers or trout last time, and selfishly some pointers on wtf I'm doing wrong when I fish for trout 😊

/// Only thing that can change is my daughter has been running a fever for a few days, been to doc once and with her coughing said she may have pneumonia but we need to see it play out the next few and possible chest x-rays. That or severe weather are the only issues that may change a few things.
