Hi everyone!

I will be visiting the Lock Haven area this weekend and am hoping to get out and fish friday afternoon. Unfortunately I will only have a few hours to fish so I would like to limit my drive time. I normally fish for trout when visiting but will be meeting my brother who prefers bass. That being said, does any one have suggestions for areas to wade for smallies in the area? I was thinking possibly the WB of the Susquehanna between Lock Haven and Renovo or even the the Bald Eagle below the dam. Any input would be appreciated or feel to PM i you prefer. Thanks!
