Doing a oval or a figure 8 is almost impossible from the bank unless ur up on a rock something with deep water right infront of ya. And trust me noise from knots and scraping the rod tip on the bottom does spook a hot fish. Hitting the fish with your rod or bring a fish in on the turn through your shadow does.

Having oversized knots that get hung in the tip top and guides is a problem after hook up when the leader is up in the rod.
