I like Rick Hafele's "Nymph-Fishing Rivers And Streams: A Biologist's View of Taking Trout Below the Surface" (Hardcover). It comes with a DVD of Rick and John Smeraglio using some of the more popular techniques. I think that they have a good sense of humor, so the video is pretty good -- IMHO. The book goes into more depth than the DVD, and they complement each other.

I get all of my books from The Angling Bookstore. They have more titles of books and videos than you can imagine. <http://www.theanglingbookstore.com/>

I've known Ben personally for a long time, and if you've ever been to one of the International Fly Tying Symposiums or FlyFishingShow West by Chuck Furimsky, that's his dad. They're both exceptionally nice guys.
