they r right about the Simms name adding on to the cost of the wader.

Just like ORVIS adds onto the cost of the rod

Go for the Simms wader make sure it is one that is Made in the
USA

That is the high priced wader, but you will be getting a quality, product, made by folks who live and work and support their families here in the U.S.A.

I have a pair of their Waders
Very Happy with them.

Make sure you get a pair with the built in gravel guard that is a must.
