1WT,

The tailrace below Conowingo is tidewater and the stripers there are wild striped bass from the Chesapeake Bay, not "wipers." The PFBC stocks wipers in the Susquehanna up here in PA.

I agree, I stand corrected. I forgot that the Cono is in MD!

Do you need a MD license to fish there?

The "fall bite" is starting..... my fave time of the year.

Soon, stripers at IBSP, and the steel will start! Life is good again!
