Fished twice on Saturday from my kayak in Lynnhaven Inlet VA:

Dayshift- Fished in broad bay from 8-1. Lots o' tailbiters no hookups. Had a few solid hits at the grass island across from the pilot dock.

Nightshift- 8:30pm-12:30am. Different game at night. Docklights + small flies = fish. Caught Stripers, pups, blue fish and spot all on fly rod. Flies had to be in the 2" range to get bit.
