I actually attended this meeting along with 5 of my friends to speak our opinions on what they are planning. they did say that the plan is not set in stone and they want opinions about the plan. We showed them results of our fisheries near us and to voice we would like to keep them on the stocking program. my friends and I have been helping to float stock musky fingerings for 6 years now, so we also showed them photos of the stocking. if anybody wants to comment on their site it would help alot and could be enough to keep your local waters stocked with musky.
