They've been posted here on Paff (and pretty much every fishing website at some point)....but are always worth a re-visit for some laughs. Growing up in Texas back in the 70s I just loved Bill Dance's fishing shows. Although I've never met him, I'll always feel that he helped get me started in my lifelong passion for fishing. Thanks for the good times Bill, and here's wishing you keep making fishing shows for another 40 years!

Most of us have had days like these..... 😄
