hmmm, doesn't this post break the rules:

"Things that will not work: not naming your stream or location, only boasting about fish caught, spin and bait fishing reports, any rants, questions, requests for a report, or guide reports. Please use the other forums."

perhaps the reason you don't see as many posts is the rules require too much information. I myself will never post and name the stream and location. I would certainly give approximate location and anyone that has a clue should be able to figure it out...isn't that what fishing is all about?
