Stagger, I made a post in gear talk about rod building, really not that bad, and price is way better, plus you get that little hey I did that feeling. Plus maybe you should put a fly thing kit in the list of presents as well, I loose the darn things constantly, and the cost adds up after a while @ \$1.50-2.00 each...

And yeah my mrs just ordered my Xmas present 12' spey rod build kit!!! Should be here thursday 🎁
