If you want to get a lot of exercise go ahead and do that hike. There's a lot of elevation difference between top and bottom.

If you just want to fish, there are a lot easier ways. You can just walk or bike down the bike trail from the Darling Run access, near Ansonia. Or do the same from Blackwell.

Or, you can drive down into the canyon at Tiadaghton. A 4wd vehicle is recommended. There are rough spots, and it gets "greasy" after a rain. I've driven down there, and back up, in a regular car, but it was a little dicey.
