I've seen a few shows with PA flyfishing - TU's "on the rise" with Frank Smethurst for trout , and Familiar Waters with NFL pro Mike Palawski on Elk creek midwinter for steel, "wild on the fly" had walt geryk up at the DSR on the Salmon River in NY....

there are a few shows on versus, outdoor channel, sportsman's channel. Curtis Fleming is another one who has been on, fishing the spring creeks i think. which i saw the Letort on a show just a few months back.

It is a surprise though that they don't have a weekly regional show like New England's "On The Water". its not like they'd be short of subject matter.
