Re: Used tippet. If you don't want to buy something to store used tippet, do this:

Take the used tippet and shove it far down into the leg of your waders or hip boots. It will be out of the way there the rest of the day.

When you "de-boot" at your car at the end of the day, there it is.

I always used a sandwich bag. It holds a snack for the first part of the day, and trash for the rest. And it holds all sorts of trash, orange peels, wrappers, tippet, chewed up flies. Plus it's not swinging around on the end of a zinger or taking up a lot of extra room in a pocket when not in use.
