When I lived in Jersey Shore, Pa, a lot of people fished Raughtown Creek which ran through Ravensbug State Park. It disappeared underground for a few miles and re-emerged as Antes Creek. Antes Creek ran for 5 miles to it's mouth near the big island at Jersey Shore. I wasn't a fisherman at the time but it was well known it the area for good fishing. It's maybe two exits west on I-80 from White Deer.
