Also, there is a canoe shop right on the river called lazy river canoe rental. They've always shuttled me on my trips. They also have a nice lawn, and they will allow you to camp there overnight if you are a customer.

<http://www.lazyrivercanoerental.com/>

If you wanted to float multiple days, you can start on the east branch and float to ridgway, then float downstream from there.

I've always wanted to fish below ridgway during the cooler months, but I never had the opportunity. I've caught nice browns all the way to the takeout, and I'm sure that there are a few big fish below ridgway as well.
