Also stay away from anything cotton in winter!!!!!!Wool or high tech stuff is the way to go, cotton absorbs your sweat (yes you will sweat a little) and gets very cold when wet.

Verry important!!

Also get boots one size bigger for more socks. Keep moving, move in and out of the water and not to deep.

Take gloves off when moving and put them in side of your waders. You can dry your hands but when your gloves are wet they will be wet all day.

Good Luck!!

Sean
