I think it's a good idea to go to Cabelas and let them set you up with a rod and reel in your price range. Remember that you also need fly line, backing, leaders and tippet, which could add another \$50 to \$75 to your cost. This is why you should look for an outfit, which includes everything in one price, cheaper than if you buy everything separately. (Then of course there's flies, waders/boots if you don't have them, miscellaneous tools and supplies, etc....!)
