I rarely hear or see any reports on this beautiful stream which has it's headwaters on 7 Springs Resort property and feeds into Laurel Hill Creek.. Walked the stretch adjacent to 7 Springs private Lake Gosling along Triple Creek Road and was impressed with the numerous holes and riffles that look like prime Brookie territory... Hope some of you have had some experience on Allen and are willing to share it..I am going to make it a priority to fish it from Laurel Hill Creek upstream to public limit ...

Frank
